

MINIATURE CANNON TECHNOLOGIES LLC.

## Warranty Registration Form

All MCT mini cannons are covered by our lifetime warranty! Warranty fully covers carriage damage, and barrel finishes. Barrel/trunnion damage is covered if repair is possible without replacement (at our discretion). Warranty does not cover loss, or structural damage to barrels caused by misuse. Any and all replaced parts will not be returned to the customer.

### INSTRUCTIONS:

Please fill out this form completely and include it in the package with your cannon. Use **one form for each cannon sent**. Clean the cannon to the best of your ability. Make certain there isn't any unburnt powder in or on the cannon. If there is a jammed projectile in the barrel, drain any remaining powder propellant via the vent (fuse hole) using a gimlet to assist.

Customer is responsible for shipping the cannon(s) to MCT. Please package your items in a secure way to prevent further damage. Mini Cannon Tech is not responsible for loss or damage during shipping. Once we receive your cannon(s) in the mail, we will notify you using the email or phone number you provided, give you an accurate lead time for necessary repairs and estimated delivery date back to you. Usual turn-around time is 5 business days once we receive your items.

**Cannons with jammed projectiles:** We are more than happy to attempt\* to remove jammed/stuck projectiles if and only if the following conditions are met:

- Projectile material must be lead (NOT STEEL). If you purchased the projectile from us, it is lead.
- All residual powder has been drained/removed.

\*We can not guarantee that we will be able to successfully remove the jammed projectile. If we can't, we will contact you with further options.
